For immediate release

Airport parking reservation website to free travelers of nationwide parking hassles

West Hartford, Connecticut – TUESDAY, APRIL 18th, 2006 – Park Ride Fly USA LLC (<http://www.parkrideflyusa.com>), owner/operator of leading off-site airport parking facilities since 1987, is pleased to announce today's official launch of [ParkRideFlyUSA.com](http://www.ParkRideFlyUSA.com), their new nationwide online airport parking reservations website, home to 34 of the finest offsite discount airport parking facilities across the country.

The goal of the website portal is to make the lives of business and leisure travelers and travel agents much easier by centralizing all key information in one convenient online location. When browsing [ParkRideFlyUSA.com](http://www.ParkRideFlyUSA.com), you'll find everything you need to know about the best offsite airport parking facilities and the services they offer; you'll feel at ease pre-booking airport parking across the country on a secure server, at rates that beat most airport parking lots; you'll get consistent top-quality customer service every time, and above all, you won't have to search any further to guarantee your hassle-free airport parking experience.

"Time and time again, we hear news reports that communicate how stressful it can be to park at local airports," says Mark E. Wertheim, President of Park Ride Fly USA LLC. "Airport parking lots often provide limited space and limited services. They tend to fill up very quickly, and their rates are often more expensive than most offsite airport parking lots."

Travelers want the best available airport parking rate. They like knowing they have a secure space reserved for them, before they even arrive at the airport. They don't like extra charges, such as reservation fees, and they want to avoid as much stress as possible when traveling. They also want a safe location to leave their vehicle when they are out of town, and exceptional customer service, too. Park Ride Fly USA promises all this, and more.

With a total of 34 offsite airport parking locations online today – and more being added in the coming months, it won't be long before business and leisure travelers can book airport parking at all major airports in the US and Canada, by visiting just *one* website: www.ParkRideFlyUSA.com.

According to Susan Trimarchi, Director of Online Services, Park Ride Fly USA does not over-promise and under-deliver. "We take customer service very seriously. Our website was developed after a year of collecting surveys from our customers. First time visitors will find the site user-friendly, and easy to navigate to get the information they need to make a secure airport parking reservation. For our Frequent Users, the reservation engine is easily accessible, and the process is always fast and convenient," says Trimarchi. "We pride ourselves on offering exceptional service to our customers. A real person on the other end of the phone, waiting to assist customers, is what sets us apart from our competitors."
